

Candidate - Tammy Miller

Biography

I joined Apparatus Repair & Engineering, Inc. in 1992 as the Corporate Secretary, a position I hold today. I've assisted in the administration of AR&E in one form or another during my 32 years, including payroll, payables, receivables, HR, hiring, receptionist, counter sales, receiving & shipping.

My involvement with EASA has ranged from attending the annual international conference, to President of the local chapter. We attended the Mid Atlantic/Quaker City Chapter in our early years with EASA at local meetings and regional conferences. In later years I chaired the conferences. I organized and/or co-directed the spouse programs, and exhibit halls in addition to the advertising and marketing committee, program book layout committee, theme committee, entertainment committee, treasurer and hotel committee. I have also secured speakers for seminars and entertainment for our local chapter.

Currently, I am the President of Mid Atlantic Chapter and acting treasurer. I enjoy interacting with our local shops and putting together our Chapter website. I love what EASA has to offer our shops for their success.

It would be an honor to serve as a Director of the International Board.

Campaign Statement

I'm Tammy Miller and since 2018 president of Mid Atlantic chapter of EASA, I'm also the acting treasurer. I'm seeking the open Board of Director position for region 1 and appreciate your vote.

I'm the corporate secretary of Apparatus Repair & Engineering, Inc., a shop in region 1 of our EASA association. I've held this position since 1992. I work closely with the president and operations manager in administration duties.

In addition to my admin duties, I was the CEO for 26 years and managed a local non-profit ministry. I was the Director of Adult, Youth & Children's education for 7 years and co-led Missions teams throughout the states for several years.

Working together with many different individuals is a passion of mine. Coming up with solutions to problems and hands on leadership presents examples that help us all succeed. I believe in a future vision, good communication and encouraging others to meet their utmost potential. Knowledge is important, and sharing experiences is priceless. This would be my goal for this position. My highlight accomplishment was being keynote speaker, two separate years for high school graduations.

If your dreams don't scare you, they aren't big enough!
